

Med & Care

BP Med & Care®: high-performance work clothing for moments that matter.

www.bp-online.com

BIERBAUM-PROENEN. SINCE 1788.

You can rely on us.

Maximum freedom of movement, intelligent details, great comfort.

MOMENTS CAPTURED

CREATING MOMENTS WITH BP

Tell us your story!

Our fabrics: designed to make you feel good.

Always comfortable and easy-care: BP Med & Care® offers clothing made from pure cotton, hard-wearing blended fabrics and beautifully soft and absorbent Tencel®.

Our fits: freedom of movement guaranteed.

We want you to feel good in whatever you wear. That's why we offer a range of fits, from slim to relaxed. There's something for everyone.

Design: intelligent BP solutions.

It is the details that make your daily working life easier: for example, sleeves with a stretch insert that you can push up to wash your hands. Or our short-sleeve coat that makes it easier for you to wash your hands and forearms. The BP arm-lift system that lets you reach high without your top riding up. Or the waistband that stays in place, even when you bend down. Many of these ideas were developed in collaboration with wearers like you and are thus particularly suitable for day-to-day work in the medical and nursing professions.

100% team spirit: our colour range.

A broad range of great colours, making it easy to kit out an entire team. BP Med & Care® can cater for every individual CI colour combination for medical practice, laboratories and clinics.

CREATING MOMENTS WITH BP

“It’s those moments that make you realise: I’m in the perfect job! The passion that I invest daily at work is worth it!”

MOMENTS CAPTURED

We’ve all experienced special moments at work, moments that give us a boost and help us through the rest of the day. It might be a successful operation, someone on the road to recovery, a smile or a squeeze of the hand from a patient, or a thank you from a relative. Or maybe a word of praise from your boss, an uplifting chat with colleagues, or the sense of pride at overcoming a challenge. Each of these moments is precious and irreplaceable, especially in the medical and care sector, where workers have to cope with stress and time pressure.

These moments mean a lot. They tell you: I’ve done a good job. I’ve done my best to help other people. I am recognised for my work. I’m part of an amazing team. It’s those moments

that make you realise: It might be difficult, but I’m in the right profession! The passion that I invest in my job every day is worth it!

We’ve been out and about looking for people who work in medicine and the care professions with moments to share. What motivates them at work? And how do they manage to perform at a consistently high level day in, day out? In our bid to find out, we got to know a bunch of interesting people and learnt a lot about their working lives.

PHARMA- CEUTICAL ASSISTANT

SIGRID

"Building up trusting relationships with our customers is very important as we look after many of them on a long-term basis ..."

MOMENTS WHEN GOOD ADVICE IS THE BEST MEDICINE.

There's a long queue again today at the local pharmacy in the small German town of Uedem. Many elderly customers, but younger people too, are waiting to speak to 53-year-old pharmaceutical assistant Sigrid. All of them need some kind of medicine. But what they are also waiting for is good advice and personal contact. Many of the pharmacy's customers in this quiet town in the Lower Rhine region are in fact regulars. "We really notice that doctors have less time available than they used to and that patients are coming here for advice," says Sigrid.

This direct contact with the public was one of the factors that drew Sigrid to the profession. After finishing school all she was sure of was that an office job wasn't for her. She tried a work placement in a pharmacy and discovered she liked the job. The varied role appealed to her – dealing with customers, handling prescriptions and checking medicines. Sigrid trained as a pharmaceutical assistant and now, after almost 30 years in this career, says "I really enjoy my job."

Her colleagues in her team of around 10 people are another reason for this job satisfaction. "We're a great team, that makes my work twice as much fun."

Sigrid has been working in Uedem for six years now, after a previous job in less-rural Essen. "There's definitely a difference between urban and rural areas in terms of customer interaction. Everything's a bit more personal in the country," she remarks.

Sigrid spends most of her working day behind the counter dealing with customers. The rest of her time is devoted to admin and work in the lab. The first thing she does when she arrives in the morning is pull on her white coat and get ready for the day ahead. Her workwear does more than protect her during lab work. "The white coat is also important to the customers. It makes me look professional and gives me a reassuring air of authority."

MOMENTS BETWEEN PRECISION AND PASSION

12.08.1964	10/14
1000-1	10.07.2012
51000 10.07.2012 2711111004	

Over time, Sigrid gets to know most of her customers, and will chat with them about their personal lives too. "Building up trusting relationships with our customers is very important as we look after many of them on a long-term basis and it's good to know a bit more about their lives." There are inevitably sad moments during Sigrid's working day. If a customer has had a gloomy diagnosis, Sigrid will realise what's going on from the medicines they require and will obviously feel sympathy towards them. But the converse is also true, when patients make a good recovery from illness. "Those are the best moments for me. That's when I realise why I do the job."

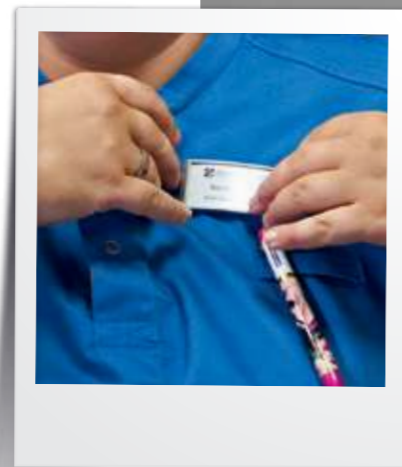

"We're a great team, that makes my work twice as much fun."

MOMENTS WHEN MAN IS THE MEASURE OF ALL THINGS.

Verena is a real people's person. And that's clear to anyone who watches this trained nurse at work in the care home. Despite a job that is frequently exhausting, stressful and tough, the 33-year-old with the friendly smile and tattoos is always good-humoured, caring and considerate as she looks after the residents. Full of jokes, joy and warmth, she is loved by the residents who are well cared for.

Mornings, 6.15 am: Time for Verena and her colleagues to start their shift at the "Altes Rathaus" nursing home in Bedburg-Hau in Germany's Lower Rhine region. The home is privately run, by the Clivia Group, and Verena manages an accommodation area. First things first, she puts on her tunic. "Work clothing is important. It needs to be roomy and comfortable, and not in any way restrictive when I'm working." But she doesn't just wear her tunic for practical reasons. "When I put my tunic on, I'm getting ready for my working day and my role as a nurse."

*"I've discovered
that nursing is my
passion."*

GERIATRIC NURSE

VERENA

The fact that nursing as a profession is not always properly valued by society is something that Verena regrets. "We are working in such an important role that is only going to grow more important as our population gets older." If Verena could talk to the politicians directly she would ask for more staff, more education on what nursing staff do on a daily basis and better pay.

But even if some things could be improved, Verena can't imagine a better profession. "I am proud to be a nurse because you can make a difference in the patients' lives." She loves her job and enjoys going to work every day. Sometimes she takes her daughter with her. She would like to be a nurse one day too.

MOMENTS WHEN A SMILE IS INFECTIOUS.

When she was at school Verena wanted to be a technical drafter or architect but ended up in nursing more or less by accident after doing a work placement. People instead of buildings, and caring instead of drawing. "I've discovered that nursing is my passion," says Verena. And she's in no doubt that you need this passion to do her job.

For most of the residents, their time in the home will be the last stage in their lives. Verena and their colleagues want to make sure that the time these people have left is as pleasant as possible. Organising walks, board games and other activities is just as important as nursing duties and providing practical help with tasks like dressing.

Personal relationships naturally develop over time. "For some of the residents who don't have any family of their own, the nursing staff become like family to them."

And just like in any family, there are good days and bad days. It can be particularly difficult when residents are suffering from dementia and struggle to recognise what's going on around them, even mistaking the nursing staff for the enemy. "You have to stop and take a step backwards, take a deep breath and try again to calm them down." Looking after the residents at the end of their lives is another very difficult time. And yet, "the good moments far outweigh the bad, and that's what gives me the strength to carry on."

"A grateful smile, a hand squeeze or even a simple thank you mean the world to us as nurses."

Creating moments with BP. Since 1788.

We make clothing for people who identify with their work: enjoyment and success are as important as a high performance at all times and 100% commitment.

We offer work clothing solutions that meet these requirements and that are reliable, day after day. With a feel for details. With high sustainability standards. And with the sheer joy of quality.

We at BP have been investing in this quality since 1788. For people who enjoy their work but whose everyday working lives are also shaped by time pressure and involve physically demanding activities. For these wearers of our work clothing, material, fit, durability and ecological compatibility are particularly crucial.

Sustainability, quality and professionalism. Brought to life by BP.

We invite you to discover for yourself this difference in terms of quality, sustainability, function and design. In short: our professional BP clothing solutions.

This catalogue is valid from 2018 to 2020. For production reasons, we reserve the right to make changes to individual products. Printing errors reserved.

An eye on the world.

We create sustainable values for the people who work with us. Economic success equips us for the future. We stand for fair working conditions and use natural resources responsibly.

Basic principle 5 of the BP identity

MORE respect thanks to sustainability.

We at BP believe it is our responsibility to apply the same values to the development and production of our work clothing as we have applied to the running of our company since 1788. One of these values is sustainability.

In order to meet this claim, we expect that everyone at BP, as well as our suppliers and partners, show respect towards others and the environment.

On the next page, by taking BP's own production company VETRA in Tunisia by way of example, we describe how this is implemented at one of our foreign production sites.

We work with a variety of institutions that promote, require and support sustainability. For example, we produce all work

clothing solutions worldwide according to the principles of the Fair Wear Foundation (FWF) and have now been awarded the status Fair Wear Leader five times in succession. We also support the Fairtrade Cotton Program, and all of our products are, amongst others, certified in accordance with Oeko-Tex® Standard 100. Most of the garments in our Med & Care collection are suitable for industrial laundering.

You can rely on BP quality and our commitment to man and nature. To find out more, go to www.bp-online.com.

MORE commitment to planet fairness.

BP and the Fair Wear Foundation.

Manufacturing good products and standing up for a good cause. Principles that bring people together. All the more so if more than 120 European companies join forces in order to improve working conditions in the textile and clothing industry.

The Fair Wear Foundation (FWF) multi-stakeholder initiative was founded in 1999. In 2010, BP became the first German supplier of work clothing to join. All members are inspected by the organisation on a regular basis. Not only are they inspected but also the respective production partners. So that BP can be sure that everyone is behind this initiative, the clothing manufacturers also sign the FWF principles. Consequently, everyone pulls together.

Today, we are proud to say that 95% of the BP procurement volume is sourced from audited production partners. And that BP has been awarded the status Fair Wear Leader for the fifth time in succession.

Find out more at www.fairwear.org

Annet, Sustainability Cologne

Quality, made by VETRA.

VETRA, the BP production company in Tunisia, was founded in 1995 and now sews our most complex products in small batch sizes. This isn't surprising as 280 highly trained employees work at VETRA, and almost half of them have been there for more than 15 years, which means that they have a lot of expertise for the company.

VETRA stands for flexibility, quality and efficiency. Its expertise in the field of industrial manufacture in particular is excellent. BP employees based in Cologne often travel to Tunisia for training and development. In turn, employees in Domstrasse, Cologne,

often provide training for the Tunisian partners, passing on their innovative knowledge.

For man and the environment.

VETRA is StEP-certified and audited on a regular basis by the Fair Wear Foundation (FWF). BP works intensively on improving working conditions at its own factory. In 2017, BP and VETRA

together launched a FWF pilot project called "Living Wage" that is aimed at finding out how remuneration can be improved for factory employees and which other financial possibilities or support can be made available.

"To produce good work, you have to be happy. This is the basis of our quality."

Matthias, Manager of VETRA, the BP production site in Tunisia.

And he's right, as is confirmed by the work of our BP production company in North Africa.

MORE than just manufactured.

We are a member of the FAIR WEAR FOUNDATION multi-stakeholder initiative. The aim of the FAIR WEAR FOUNDATION is to improve working conditions for people employed in the international clothing industry. We have now been named Fair Wear Leader five times in succession.

For more information, go to www.fairwear.org

We participate in the Fairtrade Cotton Program. This program enables small-scale farmers to sell more of their cotton as Fairtrade. In 2017, as part of the Fairtrade Cotton Program, we purchased 10% of our cotton under Fairtrade conditions.

For more information, go to www.info.fairtrade.net/program

Our product stewardship also means that BP products are harmless in terms of human ecology. That is why all BP products are tested for harmful substances, and most are certified in accordance with Oeko-Tex® Standard 100.

In 2017, our Tunisian subsidiary Vetra received SteP certification by Oeko-Tex®. By analysing all relevant company areas, such as chemicals management, environmental management, occupational health and safety, social responsibility and quality management, SteP certification provides a comprehensive and reliable indicator of a production company's approach to sustainable management.

We are a member of the Partnership for Sustainable Textiles. This German governmental initiative aims to uphold social, ecological and economical standards throughout the production and supply chain in the clothing industry.

For more information, go to www.textilbuendnis.com

Some suppliers are bluesign® system suppliers. This label eliminates harmful substances right from the beginning of the manufacturing process, and sets and controls standards for an environmentally friendly and safe production.

Our most sustainable promise of all: BP quality.

We combine excellent quality management, the best materials and passionate employees to create long-lasting products. This helps to conserve valuable environmental resources.

132 g cotton

132 g polyester

280 m yarn

28 pattern pieces

33 minutes of sewing

100% passion

Take the example of this tunic (1761 435 2106). To make it we need 132 grams of cotton and 132 grams of polyester. It is made from 28 pattern pieces, 5 press studs, 280 metres of yarn and the BP® logo – our seal of quality. Our sewing machinists use these resources, adding their skill and love for their job, to create the tunic. However, if we can use all of our expertise, our finely tuned quality management systems and our passion for quality to double the lifespan of this tunic, we can help to conserve valuable resources.

MORE COLOUR

TENCEL®

One fibre, many benefits!

With the addition of Lyocell, a fabric made out of renewable resources (TENCEL® brand name), we are extending our BP Med & Care® collection to include a material that offers unique comfort and sustainability.

The benefits at a glance.

- 1. MOISTURE-REGULATING AND BREATHABLE**
Unlike many other materials, TENCEL® has moisture-regulating properties. Sweat is absorbed much more quickly, keeping the wearer pleasantly dry and comfortable. As the absorbed liquid evaporates, the fine and particularly smooth material also has a special cooling effect on the skin.
- 2. LONG-LASTING**
TENCEL® garments are exceedingly robust and long-lasting as the closed surface of the fibres prevents any rapid loss of shape or colour.
- 3. HYGIENIC**
The moisture-wicking properties of TENCEL® have a positive knock-on effect combating bacteria and unpleasant odours even after heavy sweating.
- 4. KIND TO THE SKIN**
The TENCEL® fibres, which are especially soft compared with other materials, are silky smooth and ideal for sensitive skin.
- 5. SUITABLE FOR INDUSTRIAL LAUNDERING**
Our TENCEL® products can be industrially laundered in accordance with ISO 15797.
- 6. ENVIRONMENTALLY FRIENDLY**
Compared with alternative materials, the production process uses less natural resources like water.

Make it your OWN.

EMBROIDERED EMBLEM

Your logo, company or personal name can be sewn onto the fabric.

DIRECT EMBROIDERY

Very hard-wearing and particularly distinguished-looking. Our quality yarns are as indifferent to frequent washing as they are to the stresses of everyday wear. Lots of colours and font types are possible.

TRANSFER PRINT

This is robust individualisation using a film transfer print for printing your logo, name or motif on almost any fabric. Here, too, we offer a large range of colours, sizes and forms.

The BP logo service for your great visual appearance.

Names, logos, lettering or simple motifs – with BP, you can individualise your clothing.

The advantage: this highlights the sense of togetherness of whole teams and also, of course, the personality of the individual. Clothing can also be used to communicate the corporate design of the practice, clinic or laboratory. There are lots of colours to choose from.

The options we offer, namely direct embroidery, embroidered emblem or transfer print, are always tailored to the specific product. Furthermore, all finishing materials used by BP are suitable for **industrial laundering in compliance with ISO 15797.**

BP Tunics: The perfect cut for every figure.

BP Tunics offer:

- ✓ Wide selection of colours
- ✓ Slim and relaxed fits for men and women
- ✓ Slip-on and press-stud designs
- ✓ Innovative fabrics for maximum comfort

> Suitability for industrial laundering

The majority of BP products carry the **PRO** label. The PRO label indicates that the product meets the requirements of ISO 30023. Tests have been conducted for suitability for industrial laundering in accordance with ISO 15797, namely using washing programmes (1-8), in the tunnel finisher and/or tumble dryer. However, the PRO label does not provide any specific care instructions. Real-life test washes in an industrial laundry should be carried out before using any BP product.

Some of our products do **not** carry the PRO label. Nevertheless, they may be washed in an industrial laundry in certain circumstances. Extensive test washes should be carried out on these products especially, to ensure the correct care procedures are used. We classify our products' suitability for industrial laundering as follows:

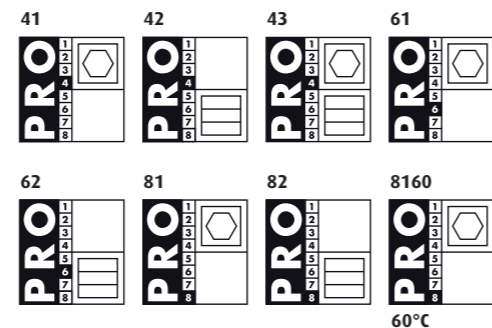

- Low suitability for industrial laundering:**
≤ 40 °C, air drying
- Medium suitability for industrial laundering:**
≤ 60 °C, 1 dot tumble drying
- High suitability for industrial laundering:**
≤ 75 °C, 2 dot tumble drying

Successful cleaning and the wear and tear on clothing are determined by the following four basic parameters: chemistry, mechanics, temperature, time (Sinner's Circle). To keep things simple, the classification above only considers the washing and drying temperature. The other factors should naturally also be taken into account when carrying out real-life test washes.

Looking good in any situation.

You can also use our other collections to find the perfect complement to your Med & Care clothing!
